(2) DD/WWS FYI.

To: Mr. C. G. Bates
Date: July 31, 1989
From: Frank A. Lowman
Subject: JAPAN - TESTING OF CHANNEL VENTILATED CIGARETTES

41-38-952-590

Information regarding the Testing of Channel Ventilated Cigarettes that we propose to send to J.T.I. is attached.

No direct reference is made to Philip Morris. Since there is a quote from Mr. Dymond that B&W and BAT support the development of a special holder for Barclay, this document should not disrupt friendly relations between our two companies.

Geoff, this is what we propose to send to J.T.I. Situation now under control.
8/1 thanks

Marc/Lee Peak cnct

This sounds correct to be the I was not previously aware of the timing - say 1993. Also, if we can't come up with a method for 9/9 mtg. we should discuss our tactics beforehand. I leave for vacation Aug. 29 so need we establish facts & strategy before then? Geoff 8/9
